## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 - 5, drawn to a production method of polyolefin foamed sheet.

Group II, claim(s) 6 and 7, drawn to a production device comprising first and second endless belts.

Group III, claim(s) 8, drawn to a production device comprising first and second rollers.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: All of the groupings are directed to a method or apparatus for production of a polyolefin foamed sheet, but each group has a different special technical feature not shared by the remaining groups. Group I is directed to a production method of polyolefin foamed sheet, which has the special technical feature of heating the foamable raw sheet at a temperature not lower than a temperature permitting thermocompression bonding to the close contact medium and lower than a foam initiating temperature. This feature is not shared by any of the remaining groups. Group II is directed a production device of polyolefin foamed sheet and has the special technical feature of a first endless belt and a second endless belt not shared by any of the remaining groups. Group III is directed to a production device of polyolefin foamed sheet and has the special technical feature of a first roller and and a second roller having a first and second heating section on the circumference thereof not shared by any of the remaining groups.

3. A telephone call was made to David Boutell on September 9, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1733

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Todd J. Kilkenny** whose telephone number is **(703) 305-6386**. The examiner can normally be reached on Mon - Fri (9 - 5).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Ball can be reached on (703) 308-2058. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
